## ProVation Medical Releases ProVation Order Sets

*New product helps improve patient safety through established standards of care*

MINNEAPOLIS, MN -Jan. 30, 2008 - ProVation® Medical, part of Wolters Kluwer Health, today announced the release of ProVation® Order Sets, an actionable, evidenced-based order set authoring and management tool. ProVation Order Sets allows hospitals to put evidence-based healthcare into practice by establishing and maintaining standards of care.

The ProVation Order Sets solution meets the growing demand from medical facilities to improve clinical performance and regulatory compliance through established standards of care. ProVation Order Sets helps improve patient care by providing easy access to a comprehensive repository of evidence; reduces costs related to medication errors and increases patient safety through built-in standardization at the point of care; aids implementation of evidence-based practice across medical specialties; and delivers a solid return on investment by simplifying the order set review and approval process.

“We need a resource for order sets that give us confidence in the accuracy of medical content, regulatory requirements and the supporting evidence,” said **Dr. Tom Herrin**, Physician Liaison, St. Dominic Hospital. “Our goal is consistent, quality orders that include patient safety elements. ProVation gives us that.”

“The ProVation Order Sets application fits our workflow,” said **Dr. Alan R. Peebles**, IT Physician Liaison, St. Dominic Hospital. “It allows us to get through the process of updating, reviewing and releasing order sets more quickly and efficiently.”

“Hospitals and ASCs have been relying on point-of-care software solutions from ProVation Medical for more than twelve years,” said **Arvind Subramanian**, President and CEO, Wolters Kluwer Health Clinical Solutions. “With ProVation Order Sets, we now offer medical facilities an easy-to-use, medical content-rich, evidence-based tool that can reduce errors and increase patient safety.”

The company will be offering ProVation Order Sets demonstrations and information in the Wolters Kluwer Health Booth (#1963) at the upcoming Health Information and Management Systems Society (HIMSS) Conference Feb. 24 - 28 in Orlando, FL.

### **About ProVation Medical**

ProVation Medical is part of Wolters Kluwer Health, a leading provider of information and business intelligence for students, professionals and institutions in medicine, nursing, allied health, pharmacy and the pharmaceutical industry. Major brands include traditional publishers of medical and drug reference tools and textbooks, such as Lippincott Williams & Wilkins and Facts & Comparisons; electronic information providers, such as Ovid, Medi-Span and ProVation Medical; and pharmaceutical information providers Adis International and Source.

ProVation Medical provides point of care solutions that enhance revenue and streamline workflow. ProVation MD & MultiCaregiver software replaces dictation/transcription and paper charting, producing complete, billing-ready, image- and diagram-enhanced documentation for clinical procedures. ProVation Order Sets allows hospitals to put evidence-based healthcare into practice by establishing and maintaining standards of care.
